Chairman's Message

Shri Kantilal Haria,
Chairman, (V.E.T.)

The greatest legacy one can pass to the future generation is not money It's definitely not materialism or hatred, but rather a legacy of character and faith, legacy of love and humility, a legacy of leadership and to make world a better place to live. When we first laid down the foundation of Shri LG Haria School, the foremost goal we had was to give this society better individuals who have passion and compassion in their hearts, and individuals who take the society on the progressive path. Technology can give you information but knowledge and wisdom is imparted in the minds of young children through values, by setting a role model and creating in them a love for learning. We as an institute consider our prime duty is to provide the best of the education to the children that contains knowledge, wisdom, values and life skills so that they make this world a beautiful place to live in.

I always believed in the immense strength of education. Unimaginable changes and reforms can be brought in the society, if its citizens are educated. It is very important for us to understand the powers of education and so only we continuously strive to empower our students with the Bramhastra called Education. LGHS leaves no stone unturned in providing holistic, value based education while fostering the natural abilities of its students. It will always be the prime motive of the Staff and Management of the School to provide a loving and calm environment to the child so that the child who enter the gate as a seed flourishes in to a big leafy tree that bears the fruits of wisdom and spreads the shade of humanity for the society.
